3. No plot or grave site shall be sold by the lot owner to any other person unless it has first been offered to the Cemetery Committee for repurchase.

4. The Cemetery Committee may refuse to consent to any sale or transfer of a cemetery burial plot, as long as there is any indebtedness due the Cemetery Committee from the record lot owner, or, in the case of burial plots conveyed before 1956, if the lot owner has not made financial provision for the perpetual care of the burial plot.

7. No interments shall be permitted in any grave site not fully paid for.

8. The cemetery authorities reserve the right to postpone or reschedule an interment in order to prevent the scheduling of more than one funeral at the same time.

FOUNDATIONS, MONUMENTS AND MARKERS

1. Burial plots will be surveyed and graded at the expense of the cemetery authorities, however, the Cemetery Committee reserves the right to make such alterations in the plan of the grounds as it deems reasonable and proper to promote the general interests of the Princeton Cemetery.

2. Foundations for monuments and headstones shall be built by and under the supervision of the cemetery authorities at the expense of the owners. All foundations shall be located at the place or places designated by the cemetery authorities.

3. At least thirty days' notice must be given to cemetery authorities prior to the building of such foundations.

8. No lot or grave shall be enclosed or have its boundaries defined by any fence, railing, coping, hedge, trees, shrubs, embankments, depressions or similar device unless approved in writing by the cemetery authorities.

9. All contractors who set monuments, markers or headstones in place in the Princeton Cemetery must remove all refuse and unused materials; should any contractor fail to do so, such refuse removal will be done by the cemetery authorities at the expense of the lot owner.

2. No mound, memorial, marker or obstruction extending above the surface of the ground or any grave planting (other than such as the cemetery authorities may erect or plant as part of its general landscaping plan) will be permitted in the memorial park section of the Princeton Cemetery.

3. Only one flush memorial marker will be permitted for each grave. A companion memorial marker may be set to embrace two grave spaces in lieu of two individual memorial markers.

PLANTING AND CARE OF LOTS

1. The planting of flowers, shrubs, trees, ivy or plants of any kind is prohibited unless prior written approval has been granted by the cemetery authorities.

2. The cemetery authorities are empowered to remove any tree or shrub, or the roots thereof, that is in any way detrimental, whether or not such tree or shrub is located wholly or partially within the boundaries of any burial plot.

3. A portion of the amount paid for a lot and a portion of the interment charge is put in the Cemetery's Maintenance and Preservation Fund. The income from this fund provides, without further cost to the lot owner, all ordinary care and maintenance of the lot, such as grass cutting, raking, care of trees, removal of dead bushes and trees, and attention to general tidiness.

4. Neither the initial charge nor the Maintenance and Preservation Fund income provides for extraordinary expenses such as repair or rehabilitation of monuments, markers, or headstones, nor for the replacement costs of monuments, markers or cornerstones.

5. Owners of burial plots which were purchased before August 1, 1956, may secure perpetual care by entering into a perpetual care agreement with the Cemetery Committee. All funds received from perpetual care agreements are deposited into the Cemetery's Maintenance and Preservation Fund.
